"A child's mind is not a container to be filled but rather a fire to be kindled"

Our founder Dr R.P Malik who created an "oasis in a desert" for him there is no failure only experience. In today's world Children are active protagonists in their own learning as we are moving away from the traditional outlook of seeing children as blank slates to individual full of great potential which help us in structuring the learning of children. And Our school believes that education will allow the child to bloom, blossom and thrive giving them the right platform where they will work towards becoming responsible citizens. It is our responsibility as guardians to establish learning environment that fosters freedom and responsibility in the mind of these budding future generation. Mahatma Gandhi said "our ability to reach unity in diversity will be the beauty and the test of our civilization". Therefore, Our school appreciates that community life is strengthened when occasions and festivals are celebrated together. It makes our children understand our composite culture and value the concept of Unity in Diversity. The common aspect of celebrating multiple religious and national festivals is the expression of gratitude to the creator and heighten the patriotic spirits in children enabling them to grow into better citizens. Furthermore when students from different religions and regions experience these festivals with joy then it truly enhances the Indian culture. It is our responsibility as teachers to kindle the feeling of oneness and cultural importance in the minds of younger generation.

President's Message

"Education is not the learning of facts but the training of the mind to think"

Our school has always endeavoured to provide an environment that fosters curiosity, encourages learning and the pursuit of excellence. We know our students as individuals. We instill a sense of independence in students allowing them to seek answers for themselves, to grow and expand their own horizons. India is the land of festivities. With its diverse cultures standing together in one place, it is indeed with pride we celebrate all the festivals that fall every year.

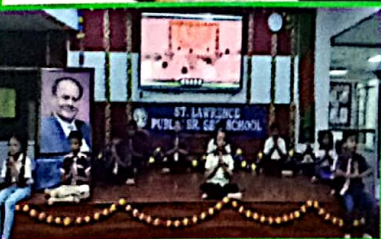

I congratulate everyone on the 75th Independence Day. Freedom does not come easily. We are all indebted to our national heroes who made this country what it is today. As patriotic citizens, let us put extra effort into performing our civic responsibilities.

All these years later, as I look back on St. Lawrence's journey, I am overwhelmed by the generosity of our community, by the dedication of our staff, and by the support and gratitude of our parents. Most of all, I am overwhelmed by the perseverance of our students, by their tenacity, their strength, and the genuine goodness of their hearts.

"Excellence is never an accident, it is always the result of high intention, sincere efforts, intelligent direction and skillful execution." These qualities are the best description of our respected founder chairman Dr.R.P.Malik Sir. Mr. Satyam Malik

"You were born to win. But, to be a winner, you must plan to win, prepare to win, and expect to win".
 It is the time for exam and once more it's the time for evaluation. I wish all the students with their dreams, ambitions, and aspirations, you must know that all of you have golden wings and become the best part of our heights. Can't let reality be your shortcomings and improve for the best. You are not limited by your limitations, but you are limited by the part of your limitations to become the best. Have faith in yourself, you will become the best because the one who conquer others is the best person and the one who conquer himself becomes the greatest. Once again I wish you all the best for your upcoming Half-Yearly examination.
