FROM THE DIRECTOR'S DESK...

We cannot always build the future for our youth, but we can build our youth for the future.

In LPES, we focus to teach students to LEARN, not just STUDY. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be taught. It is our fervent hope that the years our students spend in this institution would enable them to equip with leadership and managerial skills. The knowledge that they gain, the qualities that they imbibe and the technical skills that they learn in this school will be their major contribution to the society and to the nation. We create not the future instead we craft them for the future. I congratulate all of you on your well-deserved success. Your hard work and perseverance have paid off. Wishing you best of luck for your next session.

The best thing which I have experienced in our school was the amazing atmosphere to grow and develop which enhanced our personality and made us what we are today. The teachers were very supportive and cooperative. We never got exhausted with studies because there were many co-curricular activities and competitions for rejuvenation of mind. Our school gave us the opportunity to achieve our dreams and nurture our skills. We owe our success to the Almighty, dedicated teachers, our parents and of course our respected director for providing a moral and holistic value based education to us.

We have really enjoyed the time here and will miss the school till eternity.

PARENT'S VIEW

My daughter started studying in Lovely Public English School from last year in standard 1st. The environment of the school is great and the teachers are equally loving, respectful and enthusiastic about teaching. My daughter is so comfortable and confident now in communicating and other extra curricular activities. They work directly with parents to develop a learning system that works wonder for the individual student. The teachers of this school play important role for every student and focus for developing academics, sports, and arts. I feel that my decision was right to send my daughter to this School.
