## CHAIRPERSON'S MESSAGE...

*May we always walk on the right path and follow it.*

Education is knowledge imbued with wisdom and ethics. With this vision our institution exemplify the fact that sky is not the limit in the pursuit of excellence. The aim of our schools is to promote a system of integral education in a congenial child-friendly environment that emphasises the unity of all knowledge, synthesises humanity and sciences and recognises the fact that each child is unique. We believe that education should enable the students to soar high - morally, socially and spiritually. There is, therefore, every reason to place a renewed emphasis on the humanistic dimensions of education, enabling each person to grasp and appreciate the individuality of others, and to discover one's own self through an inner journey whose milestones are knowledge, introspection and humility.

## "Education is not the learning of facts, but the training of mind to think."

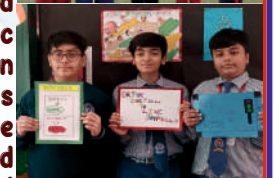

At Lovely Group of Schools, our intent is to promote a progressive society by imparting education that becomes the first step towards empowering students to make this world a better place to evolve and emerge. Our efforts are to change an individual's perspective and enable them to contribute productively.

The unique blend of academics, co-curricular activities and value education imparted at the school continue to set it apart from the crowd. It remains my humble wish that this institution continues to shine as a lighthouse of goodness and truthfulness in addition to academics. The young ones who pass through its corridors may become caring, productive and responsible citizens and future leaders of the country. Once again, I pray that God showers each one of us with his divine grace and blessings, and that our school continues to grow in faith and integrity. May God bless you all!
