"The start of something new brings the hope of something great and the assurance that anything is possible"

We are very fortunate to have a dedicated, caring and hardworking team of professionals, who always go above and beyond to ensure that students are exposed to a variety of activities to enhance and enrich their school experience. With the support of our parent community, staff and students adjusted to rapidly changing situations we have accomplished academic session 2021-22. A big thanks goes out to all parents for trusting us to do everything possible to keep the children safe, along with the support in adapting to the frequently changing Public Health Orders. Our students deserve a special recognition for their passion for learning, as well as their sense of adaptability and resilience. Students gave teachers a sense of joy, purpose and positivity through challenging times. The students managed to maintain a sense of connectedness and sustained supportive relationships. With optimism, we look forward to a good year ahead and embrace all the challenges with confidence, steadfastness and fortitude.

Good Luck for your future endeavour.

CONGRATULATIONS

Parents View

I would like to extend my deepest gratitude to principal ma'am and the school for nurturing my child so well. Being in this school has helped him climb the steps of success. The teachers are so co-operative and provide my child with the best learning experience. Apart from academics the school also provides opportunities for various co-curricular activities which helps in building good personality. Furthermore, I would like to appreciate the efforts taken by the teachers of the school during the covid time. We all know it was not possible for children to attend physical classes which could have resulted in loss in their studies. But I am really happy by the steps taken by the school to continue providing online classes so that even in this time children can still learn new things and their time is not completely wasted. It was a great experience.

Topper's View

I am so overwhelmed and grateful to have topped my class this year. I would like to thank Principal Ma'am and all my teachers for giving me this opportunity and believing in me. Initially online classes were a challenge as we were accustomed to the traditional physical classes, but the efforts of our dedicated faculty ensured that we made the most out of these classes. The teachers constantly provided us with study materials and were always available for doubt solving. They taught me the importance of hard work and always encouraged me to stay focused. Being in this school has enhanced my personality and has filled me with self-confidence. Today I actually feel so very obliged as well as very thankful for all the efforts that the school actually makes every single time. Please accept my deepest gratitude.
