

Syllabus Class KG - 2024-25

EDUCATION IS THE REAL TREASURE.

As we herald in the new academic session – a year of setting and reaching attainable goals, working harder and smarter and taking our school and students achievement to the next level of “greatness”. We believe in the credo to provide a curriculum that supports holistic development of young minds. The school has amalgamated academics and activities to aid the development of motor and gross motor skills, cognitive, aesthetic, physical and socio- emotional development. The syllabus is child centered and engages learners in a productive manner. General conversation during circle time includes moral education, vocabulary building and triggers self expression. All the days of celebration, national and international importance will be discussed with the children as and when they occur. Our emphasis is on sensitizing and igniting the young minds towards an international outlook and giving a global exposure.
